Group Vision -
**Health, Safety &
Environment EMS V 0001**

Our Health Safety and Environment Vision

The Engenda Group of Companies will deliver a sustainable World Class Health, Safety and Environmental Performance that will result in Zero Harm to our stakeholders and the environment. This will underpin our ability to thrive in a global market where customers rightly view Safety as a decisive factor in the selection of their suppliers.

Our Values:

- Commercial and operational pressures will never receive higher priority than focus on achieving safety excellence.
- We believe that, without exception, every incident and injury is avoidable.
- The health and wellbeing of our employees is paramount.
- We recognise the importance of high awareness and understanding of local and global environmental issues such that actively caring for the environment becomes second nature.
- All Engenda Group companies will achieve ISO 9001, ISO14001 and OHSAS 18001 accreditation.

How We Will Behave:

- We will never knowingly walk past an unsafe act, incident or condition.
- We will always challenge and accept challenge to deliver the highest levels of HSE standards.
- Our Managers and Supervisors will always lead by example and exhort high levels of visibility.
- Safety leadership will form a major consideration in the promotion of individuals within the Engenda Group.
- Our Critical Personal Safety Standards and Behaviours will be diligently applied across all group companies.
- Every Engenda employee is accountable for Health, Safety & Environmental performance.
